# FRUITS

(**F**armer **R**egistration and **U**nified  
beneficiary **I**nforma**T**ion **S**ystem)

URL – [www.fruits.karnataka.gov.in](http://www.fruits.karnataka.gov.in)

1

# Need for Farmer Data Base

- Various Departments Provide benefits/ assistance to the farmers
  - Revenue : Crop loss payment (NDRF/ SDRF)
  - Agriculture : Crop Insurance, various schemes
  - Horticulture : Crop Insurance, Various schemes
  - Sericulture : Various Schemes, Support Price
  - Rural Development and Panchayath Raj : MGNREGS
  - Animal Husbandry : Various Schemes, Milk subsidy

(Contd...)

## Need for Farmer Data Base (Contd...)

- Social Welfare and BCM: Digging of Bore wells
  - Co-operation : MSP, Crop loan – Interest subsidy
  - Food and Civil Supply: MSP (food crops)
- **Departments provide these services in manual fashion Or have disconnected IT systems.**
- **No common data base of farmers and benefits availed by them**

# Challenges - Absence of Farmer Data Base

- Farmers need to submit documents again and again to avail benefit(s).
  - Official need to verify the documents each time.
    - No support to authenticate electronically.
- Even unscrupulous people can avail benefit.
  - By providing fake and fudged documents.
  - Impersonation.
  - Providing partial land details to avail SF/MF benefits.
  - Availing benefit beyond upper limit - individual/Family limit.

# Challenges - Absence of Farmer Data Base (contd..)

- Government doesn't have complete view of farmers
  - Examples:
    - Crop grown v/s seeds obtained on subsidy.
    - Fertiliser purchased v/s crops grown and their extent.
    - Support/assistance from different departments for same units?
    - Benefits on **same land** multiple times and from multiple departments?
    - Seeds for Crop A - Crop Insurance for crop B - MSP for Crop C?
    - Crop loan for crop A - Crop Insurance for Crop B?

# Challenges - Absence of Farmer Data Base (contd..)

- Positive convergence – within/ across the departments?
  - SW/ BCM departments providing bore wells,
  - RDPR and Horticulture providing Area expansion under MGNREGS and other schemes,
  - Horticulture & Agriculture departments providing Micro irrigation,
  - Post harvest and marketing facility by line departments

***Improved impact of scheme implementation***

# Challenges - Absence of Farmer Data Base (Contd)

- Isolated data bases - Government failing in connecting farmers to
  - Bulk purchaser
  - Input suppliers
    - Finance – Banks/ FIs
    - Seeds
    - Pesticides
    - Fertilizers
    - Tools and equipment's

*India needs  
to have unique ID based  
unified farmer data base with  
relevant attributes*

# Creation of Farmer database

*A unified portal called **FRUITS - Farmer Registration & Unified beneficiary InformaTion System** is in place in Karnataka*

- *Developed through the NIC Karnataka*

# The FRUITS

➤ The **FRUITS** has the following details

- **Personal details**

- Aadhaar name & Number – Sec. 7 notification in place
- Mobile number
- Gender,
- Caste, minority status
- Physical ability details,
- Ration card/ Family ID number

# The FRUITS

- **Land details**
  - Land parcels' survey number and extent as per Bhoomi -land record data base
- **Crop details**
  - Crop grown details from Crop Survey data base
- **Benefits availed –**
  - Attributed to farmer
  - Attributed to land

# Features of FRUITS

- Farmer centric database
  - Farmers with and without Land are registered
- FRUITS is linked to departments IT systems and provides details
  - “HASIRU” – Horticulture dept.,
  - “K-KISAN” – Agriculture dept.,
  - “Pashu-Bhagya” – AH & VS dept.,
  - “MSP” – Food & Civil Supply dept., Cooperation dept., KMF

# Features of FRUITS (Contd...)

- All scheme payment to farmers routed through FRUITS
  - Connects to DBT - State Financial Management System (Treasury/ bank) for payment.
- Hence benefit details get recorded in FRUITS.
- Therefore, it is now an **inventory of farmers, land and benefits extended** to them.

# Strategy adopted for creation of Farmers' data in FRUITS

- Farmer ID (FID) is made mandatory for availing benefits
- All Departments providing benefits to farmers were directed to register farmers in FRUITS.
  - Registration done before granting any benefit
- Self Registration in place
- Use of CSC centres for registration
- NGOs allowed to take up registration

# How the data in FRUITS is up-to-date?

- Electronic Synchronisation with BHOOMI
  - change in ownership of land captured.
- Facility for farmers to update personal details
  - Mobile,
  - Change in Aadhaar Name,
  - Address,
  - Bank details.....
- Facility for registering authorities to update Addition and Deletion of Land details.

# Benefits to Stakeholders - Farmer

## One-time registration for lifetime

- self registration
- updation requests by farmers

## Crops details as per crop survey available.

## Facility to apply online for schemes of various department.

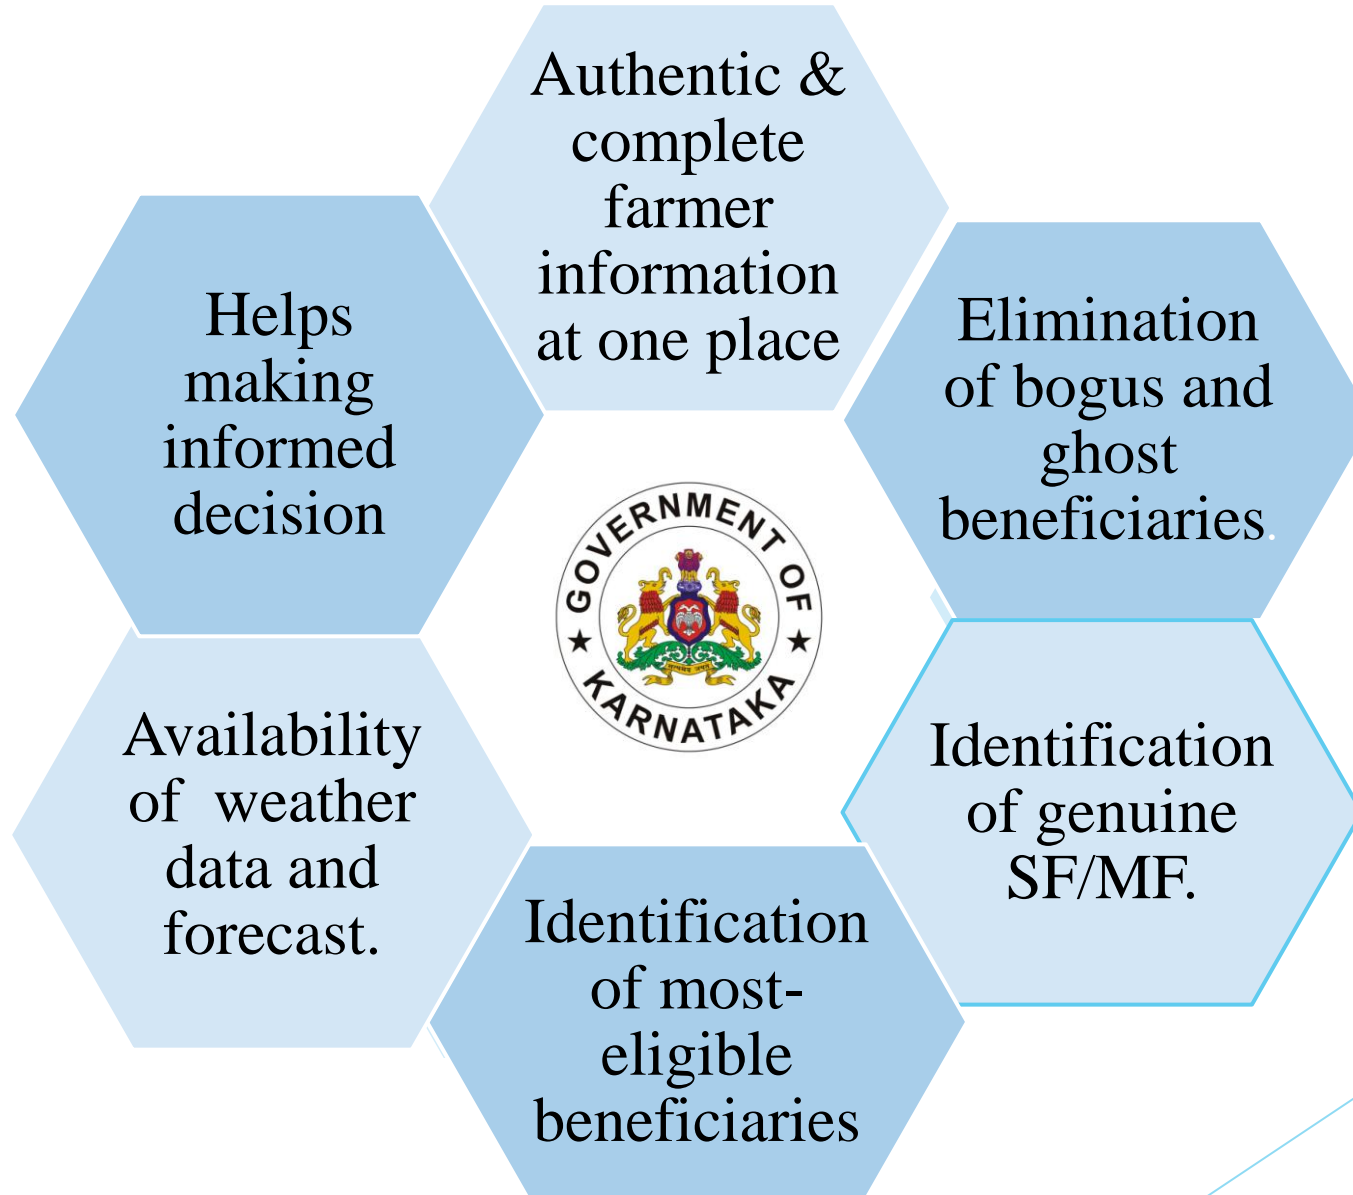

## Access to the Weather Data and forecast

## Check the status of

- Aadhaar Demo authentication
- Seeding of Account to Aadhaar(NPCI)
- Benefit availed under various Departments

# Benefits to Stakeholders - Government

# FRUITS - Electronic Integrations - Data Providers

# FRUITS - Electronic Integrations – User Applications

# Ensuring Data Authenticity

- **Data authenticity is ensured through following electronic integrations:**
  - **UIDAI (AADHAAR)**
    - (Demo Auth. | AADHAAR encrypted | Name captured as in AADHAAR)
  - **NPCI (Payment Gateway)**
    - (Aadhaar seeding with Bank account | payment status after DBT)
  - **BHOOMI (Land Records)**
    - (Ownership | Extent | Name comparison tool)
  - **AJSK (Caste & SF/MF Certificates)**  
(Electronically issued certificates)

# Ensuring Data Authenticity (Contd...)

## ➤ PDS (Ration Card data)

- (Family details | Farmer photo capture)

## ➤ KSNDMC (Weather Data)

- (Weather data (Temp, Rainfall, RH, WS) | Forecast for next 72 Hrs)

## ➤ Crop Survey

- (Crops grown details )

## ➤ Soil Health Card

- (Soil Health status - integrated with GoI)

# FRUITS- Mobile App (Contd..)

## Weather Data/Forecast

## Griviance Screen

## NPCI Data Seeding

Use of  
**FRUITS**  
in  
**Agriculture Lending**

# Agriculture Lending – use of IT systems

- No common data base or unified IT system for sanctioning/ disbursement of loan across banks.
  - Each commercial bank and cooperative banks use their own IT system.
- In most cooperative FI like PACS - No IT system at all.
- Not enough IT enabled checks to detect farmers availing multiple loans
  - On same land
  - In different banks and / or
  - Different branches.

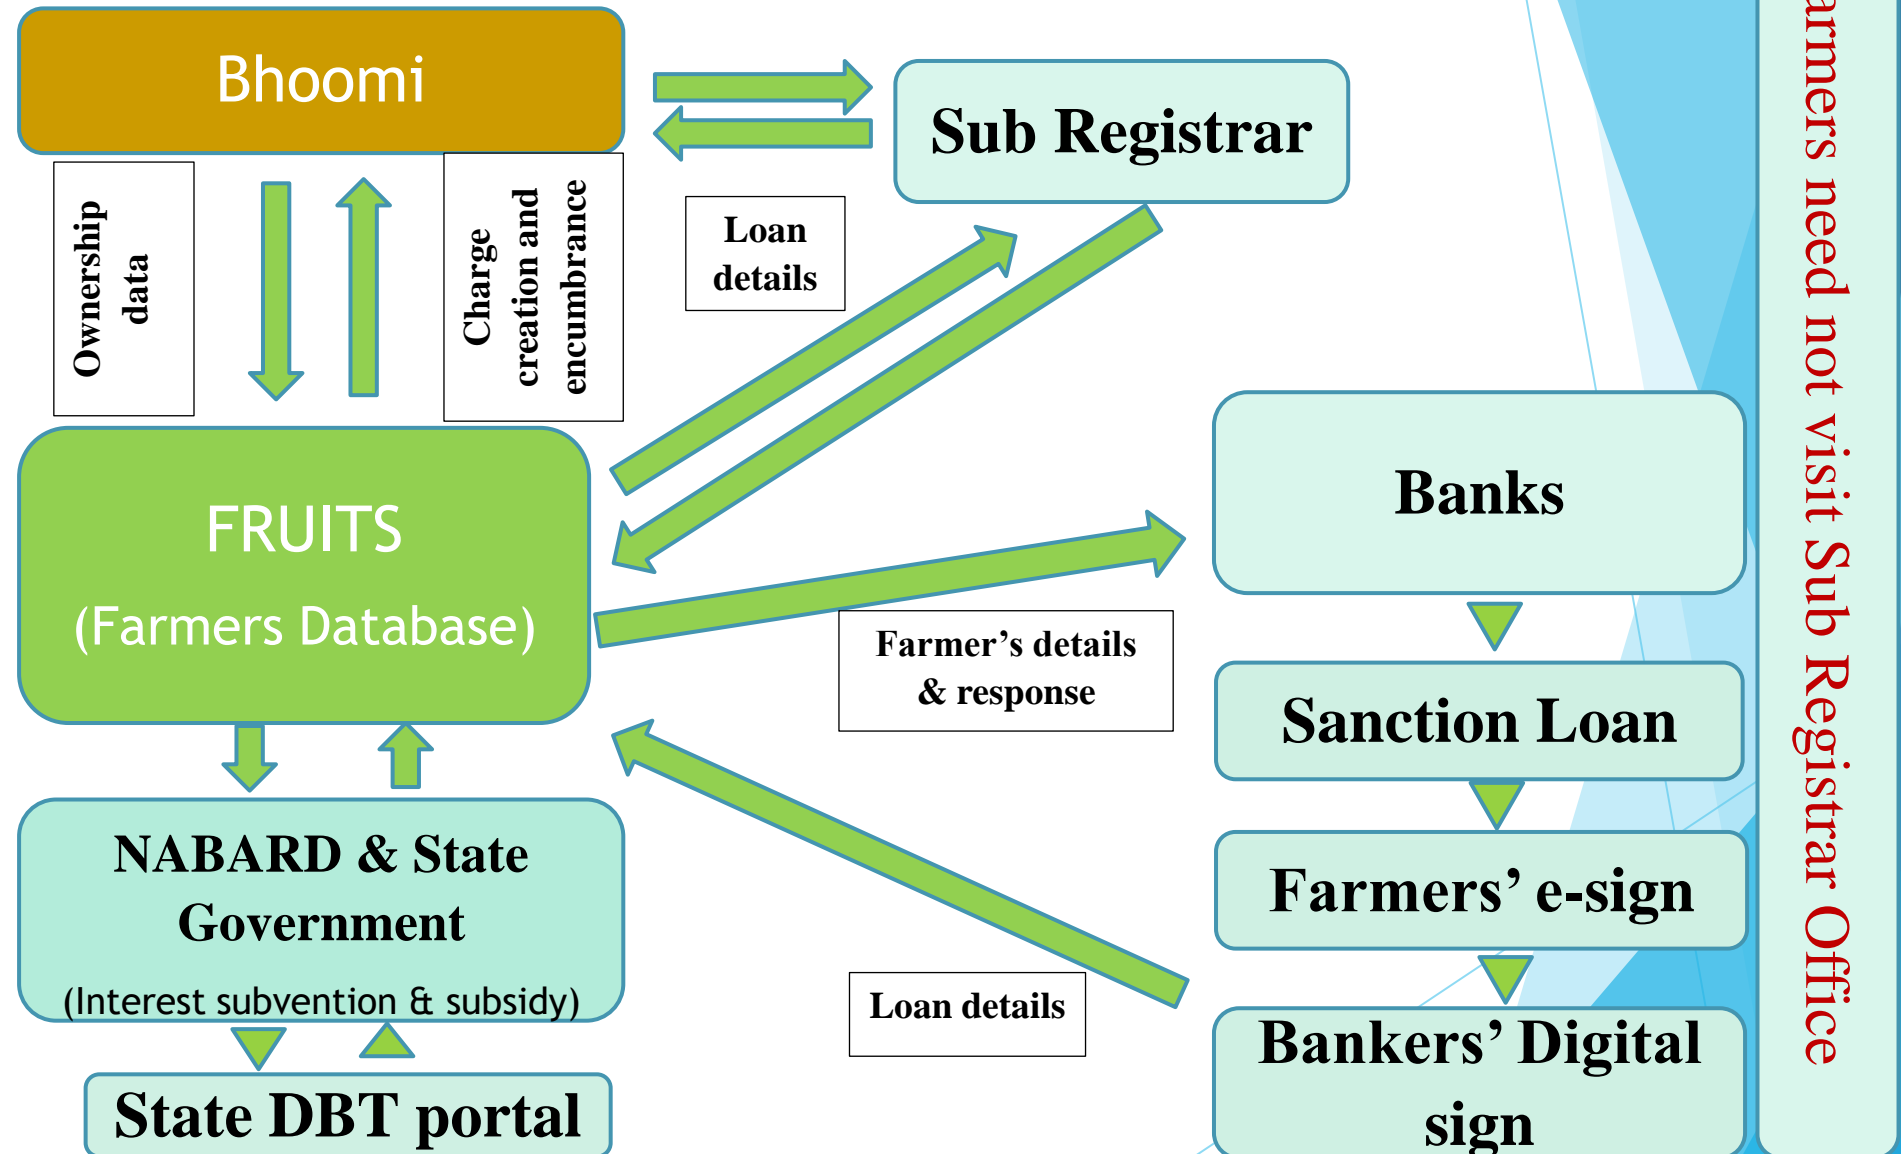

# Agriculture Lending – use of IT systems (contd..)

- Possibility of **interest subvention** and **interest subsidy** being availed multiple time.
- When loans are waived - **Waiving off of loans** of a person in multiple banks/ branches - Loss to the exchequer.
- Requirement of **de-duplication** of beneficiaries within and across the banks.

# Agriculture Lending – use of IT systems (contd..)

- **RBI** has also advised to **seed the loan details in RoR** and de-duplicate the agriculture loan
- The “FRUITS” acts as common data base of agriculture loans and helps
  - Banks,
  - Government and
  - Farmers

# Data Flow in FRUITS- Banks integration

# GO from Revenue Department to integrate FRUITS with KAVERI for registration of agriculture lending by banks

# Letter from DFS on 19.07.2021

To:

1. MDs and CEOs of all PSBs.
2. Chairman, NABARD.

**Subject: Implementation of Farmers Registration and Unified Beneficiary Information System (FRUITS) in the state of Karnataka- regarding.**

Sir,

The Internal Working Group set up in RBI has, *inter alia*, made the following recommendations relating to 'Digitalization of Land Records' in the states:

- (i) GoI should push state governments to complete the digitisation process and updation of land records in a time bound manner.
- (ii) State governments should give access to banks to digitized land records in order to verify land title and create charge online. In such states, banks may use the Records of Rights available on the portal of the concerned state governments.

2. In this connection, Department of Land Resources (DoLR), Government of India, have requested the States to link land record database with banks and financial institutions so that any loan or charges created against any parcel of land is reflected in the land records on real time basis or at the shortest span of time.

3. Recognising the importance of a Farmers' data base and evolution of an integrated agriculture ecosystem in the State, the Government of Karnataka has developed a web-based application called FRUITS IT system for registering the crops loans and creating a charge while undertaking agriculture lending by banks. The FRUITS portal was launched by the State Govt. of Karnataka in December 2020 and is being implemented on pilot basis the Bengaluru circle of Canara Bank.

4. In view of the above, to facilitate ease of carrying out agriculture lending by banks, the FRUITS portal may be utilised for rolling out across bank branches in Karnataka, after the successful implementation of this portal in the ongoing pilot project with Canara bank branches.

4. In view of the above, to facilitate ease of carrying out agriculture lending by banks, the FRUITS portal may be utilised for rolling out across bank branches in Karnataka, after the successful implementation of this portal in the ongoing pilot project with Canara bank branches.

D.O. No. 7-15/2021-Credit-I (FTS: 100324)

Dated the 01st August, 2021

**Subject: Using FRUITS Data for finalizing interest subvention claims of banks for State of Karnataka.**

2. Meanwhile, the Government of Karnataka has developed FRUITS (Farmer Registration and Unified beneficiary Information System) a unified farmer data base. The State Govt. has informed that FRUITS is now being used in agricultural lending also through banks. The Department of Financial Services vide its letter F.No. 19/11/2021-RRB, Dated 19-07-2021 has already advised all banks to use FRUITS for lending agricultural loans. This IT System would create a unified data base of farmer wise and land wise agricultural loan details and the data could be used for extending interest subvention effectively. Therefore, you are advised to use FRUITS data for finalising interest subvention claims of various banks in Karnataka State from this financial year itself.

Government of India extends interest subvention through NABARD and RBI for short term lending for agricultural purposes through Coop Banks, RRBs and Commercial Banks. As of now, there is no unified IT system having details of all agriculture loans and this Department is in the process of developing a portal for Interest Subvention on the short-term agri loans which may take some time.

2. Meanwhile, the Government of Karnataka has developed FRUITS (Farmer Registration and Unified beneficiary Information System) a unified farmer data base. The State Govt. has informed that FRUITS is now being used in agricultural lending also through banks. The Department of Financial Services vide its letter F.No. 19/11/2021-RRB, Dated 19-07-2021 has already advised all banks to use FRUITS for lending agricultural loans. This IT System would create a unified data base of farmer wise and land wise agricultural loan details and the data could be used for extending interest subvention effectively. Therefore, you are advised to use FRUITS data for finalising interest subvention claims of various banks in Karnataka State from this financial year itself.

3. For any details offices may be advised to contact Mr. Rajeev Chawla, IAS, Additional Chief Secretary DPAR (e-Gov) Government of Karnataka (Phone Number: 080-22373843 / 22353953).

Yours sincerely,

Sd/-

(Dr. Ashish Kumar Bhutani)

# How FRUITS help Banks and Government ?

- Identifying farmers through unique ID. All the details available at one place
  - No possibility of impersonation and fake records.
- Provides crop details – Right quantum of loan - scale of finance - crop grown - perennial crops.
  - Find out crop grown v/s crop loan availed.
- No multiple loans for same crop and same land (unless allowed as per guidelines).
  - No duplicate benefits.

# How FRUITS help Banks and Government? (contd..)

- **Interest subvention/ subsidy** by using FRUITS data.
  - De-duplication and saving to exchequer.
  - Even DBT could be done
- Easy coverage of loanee farmers under **crop insurance**
- Identification of farmers who have not availed loans
  - Focus on these farmers to bring under institutional finance.
- Development departments - find out potential beneficiaries

# How FRUITS help Banks and Government? (contd..)

- Helps banks in creating charge and encumbrance in RoR through electronic integration with
  - Bhoomi
  - Kaveri (Land registration application of registration dept.)
- Farmers need not visit Sub Registrar Office
- MIS report - commercial banks or cooperative

Use of  
**FRUITS**  
in  
**Advisory Services**

# Use of FRUITS in Advisory Services

- Advisories – crop, live stock related
  - SMS without knowing which farmer is growing what crop or rearing what animal
    - Farmers lose focus
    - Get irritated
    - Objective is not achieved
    - Loss to exchequer
- FRUITS knows – Farmers' location, crops grown/  
live stock owned.

## Use of FRUITS in Advisory Services (Contd...)

- SMS sent to targeted farmers based on location, crop grown, and stage of crop, Live stock owned
- Concerned departments and crop specific boards are given login and facility to create, approve and send SMS
- SMS also contains link to FRUITS web page - more details if farmer is having smart phone.

# Use of FRUITS in Crop advisory

Crop Advisory Details

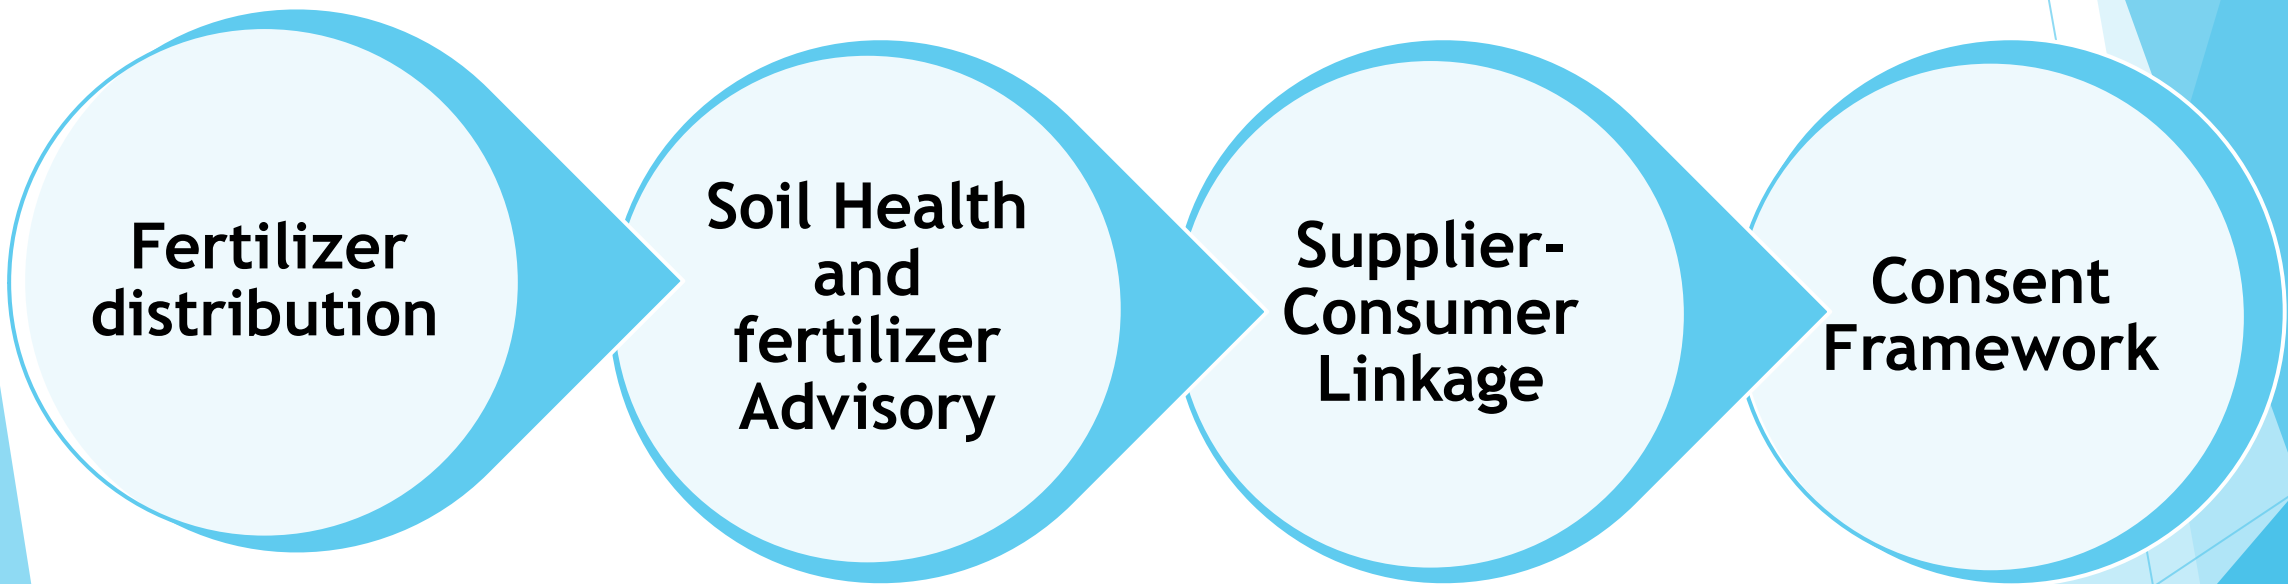

Crop Name	Type	Category	Growth Stage	Advisory In Kannada	Advisory In English	Photo
