

The Journey So Far ...

- **The Goal** - A validation of our technology built so far.
- **What model/template can we mimic ?** - Nothing. First of its kind Challenge.
- **Open line of communication** - Groups.io and GitLab were foundational tools of the challenge
- **Participant Filtering** - use online code-based quiz platforms
- **Engaging with participants** - Webinars, Blogs, Doubt Sessions and Remote Labs
- **Providing Equipments** - Ensure that all teams receive the boards in time
- **External Jury** - To ensure relevance and viability of domain ideas

Achieved a robust and scalable model of operation for HW based Grand Challenges

The Journey to **Democratize Open Source HW** has just begun ...
